UMAP-1

Action conditions

- ★ No share: They eat only their own soups.
- ★ Low-risk share: They ask for two extra bowls, spoon some of their own soup into an extra bowl, and swap the extra bowls.
- ★ High-risk share: They put both bowls in the middle of the table and eat directly from each other's bowls, going back and forth between the two bowls.

Example alternatives

- ① Christina eats only from her own bowl of chicken noodle soup and Tanya eats only from her own bowl of lentil soup
- ② One person offers their bowl to the other to try, while the other person eats from their own bowl
- ③ Christina and Tanya share each other's soups by splitting them into two bowls if they had them
- ④ They ask for an extra bowl to split and share each other's soups
- ⑤ They do not share their soups with each other and only eat from their own bowls
- ⑥ One person offers to give the other a taste of their soup from their own bowl
